

THE CHRONICLE

VOL. XIV. No. 11.

CROSSFIELD, ALBERTA, THURSDAY, APRIL 14th, 1921.

PRICE \$1.50 A WEEK.

WM. LAUT

National Bread

Did you ever—
Go into—
A neighbors house—
And sit down—
To dinner—
And when the bread was passed—
You saw—
How good it looked—
How even and brown the crust—
How white and fine the grain—
How sweet and fresh it was—
And when you took a bite—
Oh Boy—
Mother never made—
Bread like that—
And they didn't wait—
For you to ask—
Who made it—
They told you—
"It is NATIONAL BREAD—
We get it at Laut's, it's so good—
You're missing something—
If you don't try it.

William Laut,
Groceries, Hardware, Implements, Harness.

DEPOSIT YOUR SAVINGS

Regularity in depositing in our Savings Bank, even in small sums, will make your balance increase surprisingly. For example:

| Deposits of: | End 1st Yr. | End 2nd Yr. | End 3rd Yr. |
|----------------|----------------|----------------|----------------|
| \$ 1.00 Weekly | \$ 52.65 | \$105.36 | \$162.84 |
| 10.00 Monthly | 121.65 | 246.55 | 375.55 |

Gilfert & Belding,
LOCAL AGENTS.

For information and Demonstration, Call at
LIVERY BARN.

J. A. VALIQUETTE, BARRISTER AND SOLICITOR

Calgary Office: 810 1/2 First Street West.
Phone M1407.

At Hotel, Crossfield, Saturdays 10
a.m. to 3 p.m.

: Local and General :

Mr. and Mrs. D. J. McKay were
visitors to Calgary on Saturday
last.

The Editor was a business visitor
to Calgary on Monday last.

Mrs. D. Ontkes accompanied by
her daughters Marie and Gwennie
paid a visit to Calgary last week-
end.

Gilfert and Belding are local
agents for Campbell and Griffin, of
Calgary, who pay high for cream.
The old Imperial Bank building has
been secured as a receiving station.
Cheque will be issued immediately
after test.

Mrs. G. T. Jones was a visitor to
Calgary during the week.

Messrs Albert and Edward Wol-
edge were evidently getting in shape
for a walking marathon during the
week, they hiked from Calgary, called
at the home of their parents in
town, spent the night and returned
to Calgary by "shanks pony" with-
in twenty-four hours.

Hugh McBean wishes to announce
that he has opened up the Cowling
Barn, at the south end of town.
Livery and Feed at moderate charges.
Your patronage is solicited.

We noticed that one of our local
girls in the person of Miss Kathleen
Fletcher was to the fore at the Horse
Show, in Calgary, on Saturday last,
winning the prize for the best girl
rider under 15 years, also carrying
off the Silver Cup presented by Ven.
Archdeacon Dewdney, for the best
girl rider between 10 and 15 years
of age.

Dr. W. B. Price, V.S., B.V.Sc.,
Veterinary Surgeon, will visit the
Crossfield Livery Barn every Monday
afternoon.

CHURCH OF THE ASCENSION,
3rd Sunday after Easter, April 17th
10 a. m. Sunday School
11 a. m. Morning Prayer and
Sermon.

UNION CHURCH, CROSSFIELD
Sunday, April 17th 1921.

Rev. R. K. Swenerton, B.A., B.D.
Pastor.

Mr. S. Willis, Musical Director.
Mrs. R. T. Amery, Organist.
Mr. W. A. Waldoek, Sunday

School Superintendent.

Sunday School & Bible Class 2 p. m.

Preaching Service at 7.30 p. m.

"Can we Enjoy Life without be-
ing Worldly," is the subject of the
sermon to be the Pastor, next Sunday.
The choir will sing the Anthem
"The Lord is Merciful," and Rev.
R. K. Swenerton will sing a Solo
"The World's Redeemer."

There will be a special musical
service on Sunday, April 24th. Mr.
Augustine Arlidge will be present.
Yourself and friends are invited to
attend.

A Box Social and Dance will be
held at the Sunshine School House,
on Friday, April 22nd. All invited.

Mrs. J. E. Gilfert and children
took a trip to Calgary on Tuesday
last.

CROSSFIELD CASH STORE

There are several good reasons why
It **PAYS** to **PAY** Cash.

When the Credit Merchant has \$10,000
to \$20,000 on his books; this money in
actual Cash would bring him 6 per cent
in any good Bonds.

Owing to having so much money out
on his books in all probability he has to
borrow from the Bank to replace his goods,
which means 8 per cent more.

He has to make an allowance of 10
per cent to cover Bad Debts.

Who pays all this percentage, it has
got to come from somewhere. The CASH
Merchant has none of these obligations to
contend with, and has no System of Book-
keeping, which takes TIME and MONEY.

If you contemplate sending away for goods,
give us a chance to tender on your order and leave
your good money in your Home Town.

Watch this space for Specialties.

April 7th 1921.

Finding the Equilibrium

The slow and difficult process of getting the business and productive activities of the country back to a normal level, to which reference was made in this column last week, can, let it be repeated with emphasis, be only successfully accomplished through co-operation on the part of all concerned, and that means everybody. It cannot be accomplished by any one group in the State standing out and insisting on the acceptance of their own demands irrespective of the effect on others. There must be compromise, resulting in readjustments.

For one thing, it becomes increasingly evident that the Federal Government must revise their present systems and methods of levying taxation on business and productive enterprise, whether such business be agricultural production, industrial manufacturing, or commerce in its wholesale and retail departments. Present systems and methods are confusing, complicated and generally unsettling, and constitute a discouragement to enterprise, initiative and increased production. What is now required is something simple, inexpensive in operation, yet with capable of producing a large revenue to meet the pressing needs of the nation. Such a system is to be found, we believe, in the removal of the present taxation levies on business profits, and the introduction of a general and uniform tax on all business turnovers—that is, a small tax on gross sales in all lines of business activity.

If the Federal Government will take this step, then all business will know exactly where it stands and can proceed to work out permanent policies with a view to expansion and increased production, thus reducing and gradually eliminating unemployment, increasing the purchasing power of the country to absorb the larger volume of commodities produced, and at the same time bringing about a reduction in prices which will place such commodities within reach of a much larger number of people.

It should be clear to all people, and especially to Government, that the secret of national prosperity is to be found in well balanced industry. That is, that the production of every branch of industry in which people are engaged shall be in proportion to the wants and buying power of the people in all their other occupations. In other words, a national balance between occupations in which people are engaged must be found and maintained.

An expert on economics in the United States sets forth the situation quite clearly when he says that the number of people that can be employed in any industry depends upon the amount of the products that can be sold, and that depends upon the price which the consumers have to pay for them. For any commodity there is at any given time a certain price which will secure a larger net result to the producers than any other price. That is to say, if the price is lowered the additional distribution will not compensate for the sacrifice; and on the other hand, if the price is raised the loss of distribution will exceed the gain in price. For example, there is a point where railway freight rates will produce a maximum of revenue, but increased beyond that figure the rates charged operate to decrease the volume of freight carried so that the higher charges actually mean less revenue.

It must be borne in mind that everything that is offered for sale, whether it be an article of goods or the services of an individual or corporation is in competition, not only with like goods or service, but with all the multitude of attractions that are appealing to every consumer. Under these conditions it is folly on the part of an individual or group of individuals to think that he or they have it in their power to arbitrarily fix wages and prices for themselves. They may have the power to fix, and even maintain, wages, rates and prices, but they cannot escape the effect it will have upon employment or upon sales.

A striking example of the truth of this statement was shown in New York City last fall. The printers there wanted more wages and a board of arbitration awarded it to them, without, apparently, taking into consideration the state of the printing business and its relation to the general business situation. The result was that the wage increase, by increasing the cost of printing at a time when the public had less money to spend for printing, aggravated the situation, resulted in such a substantial decrease in work that hundreds of men were laid off, and the actual amount paid in wages was smaller and not larger than before the increase was made.

That illustrates the whole situation. It is shortsighted to be always thinking that wages are fixed by simply an agreement between employer and employee, and that the employer can either pay it out of his own pocket or pass it on to the consumer. If the consumer cannot pay, the employer will not long be able to do so, and unemployment is the inevitable result. There is a relationship between industry and all the other industries which must be taken into account and maintained.

There is also an equilibrium, a natural balance, which must be maintained between the occupations in which people are engaged. That balance must be sustained in order that the products or services of each group may be absorbed by all the other groups. When the balance is lost, unemployment results and continues until a redistribution is worked out, so that again everybody is at work and all the products are absorbed, either at home or abroad, a state which we call prosperity.

The co-operative efforts of all organizations and individuals must be directed towards finding that equilibrium in occupations, in wages, in production, in order that prosperity may be established. It can only be accomplished by co-operation and compromise on the part of both Capital and Labor, employer and employee.

A Bit Shy.

"Your hair," said the aggravating barber, "is coming out on top."
"Good!" cried the sensitive victim. "I knew it was in me. Now, for goodness sake don't talk to it, or it'll crawl back again."

The gallery of a theatre is called the "gods" because the ceiling of old Drury Lane theatre in London used to be painted to represent a fleecy blue sky with flying Cupids. And this picture of the gods extended right over the gallery.

What's Your Experience?

If coffee keeps you awake nights, change to

INSTANT POSTUM

a delicious meal-time drink, wholesome and satisfying, but containing nothing that will disturb your rest.

Economical — Better for You

"There's a Reason"

Figure It Out For Yourself

Honestly now! Could you get for 50c, any other prescription which would give you the same all-round service and satisfaction as a box of Zam-Buk does?

Zam-Buk is a combination of powerful, healing, herbal extracts, so refined and so potent, that it is the only medicine of any kind of soreness of the flesh, or diseased tissue or abnormal condition (such as inflammation, festering, skin poisoning) it almost immediately soothes and heals. It stops bleeding. It is highly antiseptic along with disease germs. It is suitable also for the hardened skin of the worker or the under sensitive skin of a child.

Zam-Buk is 100% pure herbal medicine. It contains no animal fat nor mineral impurities. It cannot go rancid.

"For seven years we have used Zam-Buk in our home," writes E. B. Anderson, of 1677 E. 32nd St., Minneapolis. "We simply could not get along without it. Whenever any of the children, my wife or I, happen as accident, we promptly apply Zam-Buk. It saves every doctor's bill."

Like a Man.

"I hope Mr. Hardup took his bankruptcy like a man?"
"Exactly like a man." He blamed the extravagance of his wife.—London Tit-Bits.

EXTREME MISERY DAY AND NIGHT

Follows a Breakdown of the Nervous System.

Misery day and night is the lot of hosts of men and women who are today the victims of weak nerves. Thin, pale, drawn faces and dejected attitude tell a sad tale for nervous weakness means being tortured by morbid thoughts and unaccountable fits of depression. These sufferers are painfully sensitive and easily agitated by some chance remark. Sleeplessness robs them of energy and strength; their eyes are sunken and their limbs tremble; appetite is poor and memory of things is lost. This nervous exhaustion is one of the most serious evils affecting men and women of to-day. The only way to bring back sound, vigorous health is to feed the starved nerves, which are clamoring for better blood, which new blood can be had through the use of Dr. Williams' Pink Pills, which have a direct action on the blood, and through the blood on the nervous system. That a fair use of this medicine will bring satisfactory results is shown by the experience of Mrs. Marsh, Bass River, N.S., who says: "Following a run down condition, I became practically a nervous wreck. The doctor who was called in said the trouble was inflammation of the nerves. I grew so bad that practically I had no control of my lower limbs, and had to go about with crutches. Quite suddenly, however, I found I had a small family and a baby in arms to care for and I became determined to get myself together to be growing better. One evening my husband met an aged doctor on the street and told him my condition. He asked my husband who was attending me, and when told said: 'I don't want to interfere, but why not try Dr. Williams' Pink Pills?' My husband got me a supply of these pills and after taking a few boxes I was able to go about with the use of one crutch. Continuing the use of the pills I was able to discard the other crutch as well, and was as active as ever I had been. There are many in this neighborhood who know what my condition was when I began the use of Dr. Williams' Pink Pills and who know what this medicine did for me, and I hope my experience may help some other sufferer."

Dr. Williams' Pink Pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Work of Reparation Agents

280,000 Prisoners of War Taken Out of Russia by Entente.

Two hundred and eighty thousand war prisoners of all nationalities have been taken out of Russia and sent back by the various Baltic routes up to the middle of March by reparation agents of the League of Nations. It was announced by the League of Nations News Bureau. Hundreds of thousands of prisoners, it was stated, still remain to be repatriated. The American reparation commission has contributed \$865,000 toward the expense of the work furnishing means for restoring 10,587 prisoners.

Autos Hard on Roads

Section of Rubber Tires Said to be Destructive.

Old Roman roads which had stood up under the wheel traffic of 2,000 years were demolished in ten years by the destructive action of rubber tires. The road from Durban to London, more than two hundred miles long, was known as Watling street, ran to the Roman wall along the Cheviot Hills which kept out the invading Picts and Scots. Having a perfect foundation, the road was easily surfaced and maintained through all those centuries. But the motor car made necessary its complete re-construction. It was the same with the more famous Appian Way out of Rome.

Many a man who thinks his persuasive powers are sufficient to control the affairs of a nation wouldn't even make a good book agent.

The Druggists All Agree That "P. nam's" Is Best

The oldest corn remover on the market is Putnam's Corn Extractor. Your corns will all drop out after a few treatments with this harmless remedy. Failure impossible. It is a safe substitute for "Putnam's," 25c everywhere.

B.C. Lumber Goes to Egypt.

One of the largest orders for manufactured lumber ever for manufacturing in British Columbia was closed recently when the Canadian Overseas Trading Co. signed up to supply an Alexandria firm which represents the government of Egypt with twenty-four million feet of railway ties. The first eight million feet, comprising two shiploads, will leave Vancouver in April, aboard Canadian government steamers.

The Last Asthma Attack may really be the last one if prompt measures are not taken. Dr. J. D. Kellogg's Asthma Remedy will safeguard you. It will penetrate to the smallest bronchial passage and bring about a healthy condition. Why not get this Asthma Remedy and commence its use? Inhaled as smoke or vapor, it is equally effective.

To Take the Kink Out of Yarn.

There are times when one wishes to unravel some knitted garment to take the yarn again. It is hard to knit such yarn with the kink still in it. Tie the yarn well in skeins and dip for a moment in boiling hot water, place on a cloth or hang up to dry. The yarn will be as straight and fresh and fluffy as new.

Stop the Cough—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and relieve the coughing. Try it and you will be satisfied.

Large Concern Incorporated.

The Prairie Cold Storage Company, recently incorporated in Western Canada at \$2,000,000, plans an outlay of \$1,000,000 in the construction of six buildings. The central plant will be located at Winnipeg; Manitoba, at a cost of \$400,000 and other plants will be located at Portage la Prairie, Brandon, Virden, Dauphin and at a point north of Winnipeg to take care of the fish catch from Lake Winnipeg.

A safe and sure medicine for a child troubled with worms is Mother Graves' Worm Exterminator.

Too Late.

"I don't like these photos, at all," he said, "I look like an ape."
The photographer favored him with a glance of lofty disdain.
"You should have thought of that before you had them taken," was his reply as he turned back to work.—American News Trade Journal.

Ireland spends less per head in drink than any other part of the United Kingdom.

Keeps eyes clear, bright and cool

USE SLOAN'S TO WARD OFF PAIN

You can just tell by its healthy, stimulating odor, that it is going to do you good.

If you only had some Sloan's Liniment, how handy for possible use that! And then when the rheumatic twinge subside—after hours of suffering—you forget it!

Don't do it again—get a bottle today and keep it handy for possible use tonight! A sudden attack may come on—sciatica, lumbago, sore muscles, backache, stiff joints, neuralgia, the pain and aches resulting from exposure. You'll soon find warmth and relief in Sloan's Liniment that penetrates without rubbing. Clean, economical. Three sizes—35c, 70c, \$1.40 (Made in Canada)

Sloan's Liniment

Discover New Comet.

Discovery of a new comet by the observatory of Cape Town, South Africa, was announced in a cablegram received at the Harvard observatory. The comet is visible only through a telescope and for only a portion of the day rising over the horizon two hours before sunrise. It is in the constellation of Capricornus.

For Stiff Neck And Sore Throat

Immediate relief comes from rubbing Nerviline over the chest and lower part of the neck. Rub in deeply—lots of rubbing helps. Nerviline reaches the congested parts at once, relieves tightness, takes out the soreness. A bottle of Nerviline in the home reaches a hundred ills, internal and external. Used for nearly half a century, as a general household remedy. Last bottle 35c at all dealers.

The Winner.

"We had a contest decide the prettiest girl in our graduating class of 400."
"How did it turn out?"
"One girl got two votes."—Louisville Courier-Journal.

Minard's Liniment For Burns, Etc.

Wise is the man who knows what not to say and remembers not to say it.

Heart Disease Relieved in 30 Minutes. Dr. Agnew's Remedy for the Heart is a perfect relief in all cases of Organic or Functional Heart Disease. It is a speedy effect a cure. It is a genuine remedy for Palpitation, Shortness of Breath, Smothering Spells, Pain in Left Side, and all symptoms of a diseased heart. One dose convinces.

One Kind Action!

"Well, Bobby, have you done any kind action today?"
"Yes! I gave my white mice to the cat."

A Friend of the Family

Over fifty years ago a young physician practiced widely in Pennsylvania and became famous for his uniform success in the curing of disease. This was Dr. R. V. Pierce, who afterwards established himself in Buffalo, N. Y., and placed one of his prescriptions, which he called "Golden Medical Discovery," in the drug stores in the United States and Canada, so that the public could easily obtain this remarkable tonic, corrective, and blood-maker. Dr. Pierce manufactured this "Discovery" from roots and barks without alcohol—a corrective remedy, the ingredients of which nature had put in the fields and forests, for keeping us healthy. Introduce pure red blood into the system, and health is assured. When you feel run-down, out of sorts, blue and despondent try the energizing influence of this reliable tonic. You can obtain Golden Medical Discovery in tablet or liquid form at all drug stores, or send 10c for a trial package. Dr. Pierce's Laboratory in Buffalo, N. Y.

Anyone over the age of 5 years resident or domiciled in Canada may purchase.

Any two persons may purchase jointly.

Employers may purchase for their employees—school boards for their teachers—congregations for their ministers.

Apply to your postmaster; or write, postage free, to S. T. Bastedo, Superintendent of Announcements, Ottawa, for new booklet and other information desired.

Hea's Inflamed Nostrils Stops Catarrhal Discharge Relieves Colds Quickly

You'll be pleasantly surprised at the quick action Catarrhose has upon Catarrhal conditions in the nose or throat. It is so soothing, so healing, so agreeable to use, so safe and reliable that thousands praise it and use it everyday. No nasty medicine to take—you just breathe in the balsamic vapor of the healing essences of Catarrhose and feel better at once. Catarrhose is breathed through the inhaler into every air cell in the lungs, into every air passage in the throat and nostrils. No matter where the cold or catarrh is, Catarrhose will reach it. You can keep free from coughs, colds, bronchitis and the like by using Catarrhose. Two months' treatment One Dollar, small size, 50c. Dealers everywhere, or the Catarrhose Co., Montreal.

Love of The Wild

— BY —

ARNIE P. McKISHNIE

Printed by Special Arrangements with Thea Allen, Toronto, Ont.

(Continued)

Gloss stood in the doorway between the two rooms listening to the conversation of the men. Beside her was Duff Davis, his hand in hers. The girl's face was pale and she looked as though she had not been resting well. Her great eyes were fastened on Boy's face, and once he glanced toward her, but looked quickly down again. She passed across the room now, and over to him. The men were laying their plans of picketing along the trail. Boy looked up and smiled. Davis squatted in his old attitude beside him.

"Boy," said the girl softly, "won't you promise me what I've asked—won't you?" she pleaded, bending over him.

"Her breath fanned his cheek and the red blood leaped in his veins. She brushed back his tangled curls with an old-time caress.

"It seems just as though we was little boy and girl again," she whispered, "and you always promised me what I wanted then."

"Can I promise you—," he hesitated. "Gloss," he said tenderly, "won't you please not ask if I don't want to make a promise I can't keep, and you know what I intend to do."

"And if you do it," she gasped, "oh, Boy, if you do, I can't—we can't."

"She turned her head away and he saw a shudder run through her frame. He reached out and drew the girl close to him.

"You've got to finish," he said. "I don't know," she answered wearily.

"She was looking past him and the despair in her eyes cut his soul.

"Girl," he whispered, "I'll promise you not to kill Simpson. I'll promise you, I'll reckon I understand what you want any promise I didn't know before, I don't understand and dreaded. If he was a good man, now," he smiled, "why I'd be right down glad for your sake. But I won't hurt him, Gloss, not even if he tries to shoot me."

"She stooped and looked into his face.

"Boy," she said softly, "thanks for the promise; but it's you I love—not him."

"Then she ran from the room.

"Boy arose. In his heart a song was ringing that set the whole world—his own—agoing with joy. Paisley came over and touched him on the shoulder.

"I've asked you something three times," he said. "It's comin' mornin', and the rain is done. The scouts are goin' out along the trail. I want to know who is to stay here with you and Mac while the rest of us are takin' up what we'll maybe need for a scipe."

"I guess we don't need anybody

here," said Boy.

"He walked absentmindedly about the room and, coming back, put his hands on Paisley's shoulders.

"Bill," he pleaded, "I want t' go with the scouts."

"Paisley shook his head decisively. "No good," he said firmly, "you can't go; that's all."

"Bill," said Boy, "I've given my promise that I won't hurt Simpson, won't that let me go?"

"Nor anybody else?"

"Nor anybody else?"

"Well, I guess that will let you go," chuckled Bill. "I guess it will. Fact is, you're the one ought to go. You're wiser than all the others put together at scotin'." Here you, Lajler, came back here. Boy's goin' along in your place. Your wife's kickin' like everything 'on your goin', so you stay here."

"Boy stepped forward and looked into the inner room. On the floor here and there, or furs, lay chubby-faced babies, sleeping peacefully, for shake-downs close beside them the mothers of Bushwhackers' Place.

He slipped across the room and stood beside two sleepers in the shadow. His mother's arm encircled the neck of the girl who had led him to happiness into his heart. He removed his cap and kneeling kissed the mother's cheek—current, then, reverently he touched the girl's brow with his lips, and slipped away. And through the faint light a pair of wide-open eyes, mellow with God's earthly happiness, followed him. Boy found the waiting companions outside, and slapping Declue's marrow shoulders, he bounded down the path toward the creek.

All the world was waking up to spring. The woody doily smells of the Wild crept into his face and stirred his pulse to the symphony of his world. His whole being responded to the waking-time and his kingdom was still his—aye, more than his kingdom was now his. Above his head, a gray streak against the smoky light, a flock of house-lapping ducks flattered lazily by. They were flying low and the leader's soft croak sounded to him like a greeting from friends long absent.

The creek, washed of its snow, lay still ice-fast, but clear and milk-blue with the light of wakefulness upon its face. By night the ice would be grinding and the current would be grinding and joyful, out to the open water of the bay, and by and by into the clear waters of the lake.

One grouse strayed his joy upon a log hidden in a thicket. Down in the fallow a cock-quail was whistling "Bob-Whit." Across the creek the heavy snows of winter had carried the flimsy roof of Hallibut's mill to the lake. It lay where the current would sweep it out into the open water of the schoolhouse.

Through the fog loomed up tottering, seeming to bend as though imploring the creek to carry it away from the place from which it was estranged.

"Think the ice strong enough to bear us?" Declue, Docile, it's some warm, ain't it?"

"It's strong enough," Boy answered. "I'll drag the canoe across. This ice 'll be gone by night."

Quickly the men secured the boats and with two men to a boat they passed across the creek, carefully keeping to the white ice. Once a man broke through, and one of the others, by a quick movement, caught him and pulled him to safety. So, with a laugh and a "row all together," they reached the boats on Lutherside and caught the soft-wood where the Triple Elm trail lay.

Along the trail the men mumbled, speaking little, for each was occupied with his own thoughts. To one and all the opening of spring had come as a blessing after the shackles of a long, harsh winter. They all felt its spirit and their steps were springy, their hearts, in spite of apprehension, were glad. Three miles along the trail Boy stationed his first picket.

"You'd better stay here, Jim," he said, "and keep a sharp lookout for Anderson." If you hear a high-holler call, you answer it. Then make for Bushwhackers' Place fast as your legs 'll carry you."

Two miles further on Declue took up his station and Boy passed on down the trail alone. If the wood was deep and still and gloriously restful. Squirrels bounded 'hither and thither and gave twisted their noisy notes. A red fox slunk into the thicket and the kittens roled in front of him in playful display. He had to stop over them to keep to the path.

Further on, a pole-cat, or skunk as the animal was called by the Bushwhackers, was grubbing for food in a decayed log. Boy knew at a glance that she too had babies sleeping somewhere close by, and he smiled as he cast a look of inquiry at him from her bright eyes and went unconcernedly on with her work.

Three miles deeper into the wood Boy stepped aside into the undergrowth and seated himself upon a log. All through the forenoon he sat there thinking and dreaming of Gloss and wondering why he had never before thought she cared. He reviewed bit by bit the events of the past four months and strove to place them together so as to make something of the whole. Why had Hallibut instructed his men to steal Gloss? And why was Simpson one of the gang?

Healthy Liver Healthy Life

Your liver—healthy or clogged, active or sluggish—makes all the difference between a life of health and vigor, and a life of weakness, nervousness and fatigue.

It is a stubborn liver, over-come constipation, dizziness, biliousness, indigestion, headache and the blues there is nothing on earth so good as **Carter's Little Liver Pills**. Purely vegetable.

Small Pill—Small Dose—Small Price

He thought he knew the answer to that question.

The forenoon passed and two hours of the afternoon had gone before Boy's ears were rewarded with the sound of hoof-beats along the trail. He crept forward and peered down the path. Colonel Hallibut, astride a bright-bay horse, came riding slowly along the trail. His head was low on his breast and he passed so close to Boy that he might have touched the horse's nose. Boy let him pass, his intention being to drop back into the bush he heard the mud tread of a man's foot. He waited, his hand fumbling the lock of his rifle. As he peered through the brush he could hardly suppress an exclamation, for Amos Broadbrook, his high-form bent and his face haggard and sunken, crept swiftly past him. Five paces on the man sank on one knee and threw his arms forward. Boy was quick to divine his motive and just as quick to act. His own rifle was leveled and a second before Broadbrook's rifle cracked Boy's bullet struck the barrel of the other gun and the would-be murderer's bullet went singing into the bush on the right.

The shock threw Broadbrook upon his face, and before he could regain his feet Boy was upon him. In vain the giant strove to shake off that insect arm. Boy clung to him and held him. He heard Hallibut give a cry of surprise and a moment later Amos was pinned the more effectively by the Colonel's weight. The big man held a pistol at Broadbrook's head and Boy arose and stepped one of the stirrup-leads. In another minute Amos was fast bound. Then Colonel Hallibut turned to Boy.

"Seems as though life was very uncertain about here," he remarked. "I understand that animals tried to eat me, but can't understand why you didn't let him. Suppose you explain."

"He frowned at Boy and put his pistol in his belt.

"I understand you Bushwhackers made a threat to shoot me on sight. Why didn't you let him do it?"

"Boy's eyes gleamed dangerously. "If I won't do you any good to talk like that," he cried, "I guess if I did shoot you on sight it's about what you deserve. You tried to steal our little Gloss, you and your gang. You send us word that you intend to drive us into the bay. Well, Colonel Hallibut, you'll find it hard to drive us people anywhere. I saved you from being killed just now, but that was only 'cause I had a chance. You Bushwhackers are queer. We have a funny way of giving things a square deal. We don't let folk from behind, and we don't try to steal women, either."

"The Colonel's eyes opened in surprise. "What are you talking about?" he thundered. "Do you mean to say

that I tried to kidnap one of your women? Young man," he warned, "I'm grateful to you for what you've just done, but don't you try to be funny with me. I haven't been across on your Bushwhackers' Place. I haven't done anything to any of your people, either. I did try to buy your timber, but that's all. My agents have been among you, and a nice way you've used them, I must say. Nearly killed Watson, and stole six hundred dollars of my money from him. Then you up and burn my schooner. That's what I call hospitality with a vengeance."

"You burned your own schooner," cried Roy, "and if Watson and Simpson got rough handling, it was because they deserved it."

"What had Simpson to do with this affair you speak of?" asked Hallibut.

"He was there with you and Watson the night you tried to steal Gloss," said Boy, his mouth twitching.

"Young fellow, you're crazy," growled Hallibut. "I tell you if any of it was Watson heard you say and he would set fire to my schooner," he flashed. "You're Boy McTavish, I guess, aren't you?"

"I am Boy McTavish, but I never said that."

CUTICURA HEALS RASH ON CHILD

On Body and Face. Red and Itchy. Cried For Hours. Lasted a Year.

"A rash started all over my little girl's body, and she had some on her face. It started in a pimply that was full of water, and it got red and itchy. She cried for hours. This trouble lasted a year."

"Then I started with a free sample of Cuticura Soap and Ointment. I bought more, and I used four cakes of soap and three boxes of Ointment which healed her."

(Signed) Mrs. Dora Langley, 1339 Genesee St., Verdun, Q.C., August 11, 1918.

The Cuticura Toilet Trio Consisting of Soap, Ointment and Talcum is an indispensable adjunct of the daily toilet in maintaining skin purity and skin health.

Send 10c. Ointment 25c. and Soap. Sold throughout the Dominion. Canadian Depot: The Cuticura Soap Co., Ltd., 100 St. Paul St., Montreal.

During the past year Sam J. Barnett, a justice of the peace of Dallas, Texas, added \$2,500 to his income by marrying 851 couples.

Children Cry for Fletcher's

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Dads. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and soothing syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton
Summer 1875.

By G. G. MAS-DES (Little Clerk).

(Copyrighted)

I had wintered at Fairport on the north end of Lake Manitoba and had just closed up the business in the spring, when I received orders to report at Manitoba House and superintend a small sugar making plant which the Hudson's Bay Company had undertaken on an island in the lake just out from the post where there were several thousand aspen trees. Our methods were very primitive. An old pony and stone-bowl with a barrel to gather the sap, birch bark spouts and wood troughs for containers, and a string of large-sized open copper kettles for boiling the sap. An old and wrinkled Indian woman attended to the boiling and sugar making, and when the season ended we had several thousand pounds of sugar, sugar-pitch and syrup. After keeping enough of this for home use, the orders were to send the balance up to Fort Qu'Appelle, and there it would be traded to the Plain Indians who were excessively fond of it, and the price to them was I think, a skin a pound.

The officer in charge of Manitoba House at that time was the late Isaac Cowie, and he fitted out five Red-River carts with ponies, detailed a half-breed named Charlie Anderson (generally known as Charlie-Man) for guide, had the carts loaded up with sugar and syrup, and issued us rations for the trip. Unfortunately a gun was not included in the equipment and at that time I did not own one. He then gave orders for us to proceed direct to Fort Ellet. It was a wilderness we had to traverse, and in fact on the whole trip we never saw or tracked a human being. The ponies we were using had wintered out and as the green grass was only just coming in they were in poor shape for a long trip. Our progress was very slow; not more than eighteen to twenty miles a day, and at first we had to make a number of detours to avoid bush and brush, but gradually as we got further away from the lake, the country became more open. We had no tent, but just a covering to sleep under. One night we had camped rather late on a dry looking knoll, and after supper soon went to bed, as we made a point of starting early, spelling our poor ponies twice in the day to give them the best show possible.

Charlie-Man will now tell the story: "We had put up the usual wolverine frame and over this drew our covering and went to sleep, when in the night I was awakened by Ogemases grabbing me fiercely, moaning and shaking his head from side to side. Though I was considered a strong man it took me all my time to hold my own with the little clerk, and I thought he must have gone suddenly mad. In our struggle we smashed our rude camp to pieces, rolled some distance down the knoll, and at last I managed to hold him down firmly with my knee on his chest and asked what was the matter. He was not conscious of my voice, but still kept throwing his head from side to side and moaning. It struck me at last there was something in his ear, and dragging him slowly back to the camp, I found our druggist sack, took out a bottle of Painkiller, pulled the cork with my teeth, turned him on his side, and poured the pure stuff into his ear. He collapsed as if you had hit him with a club, and finally I noticed a small red ant float out with the Painkiller. He remained uncon-

scious until morning when he woke up all right, though for several days he was quite deaf on that side.

So much for Charlie-Man's yarn. And, now I take up my narrative again. I was suddenly awakened that night by what I thought was a tremendous blow inside my head, followed by another, and another until I lost consciousness, and then you have heard Charlie-Man's story as to what happened.

Talk about grizzly bears or timber wolves, a little tiny red ant is much more to be dreaded when in your ear, and for years afterwards when sleeping out on the prairie I stopped my ears with cotton wool.

Our rations consisted of Ploj bread biscuit, large and very hard, with a small amount of buffalo pemican. Unfortunately, owing to the weakness of our ponies, the trip was taking us much longer than Mr. Cowie allowed for, so we had to limit our fare. Of course, there was plenty of maple sugar and syrup and we rather unwisely ate too much of this which caused dysentery. Finally, by Charlie's rough count, we should be within some thirty miles of Fort Ellet. But, alas, our ponies had played out entirely. Charlie was very much weaker than myself owing to the effects of too much sugar, and we held a council over night as to the best procedure. The question arose, should we kill one of the ponies, and after some discussion we decided against it, they of course being company's property. There were only two large biscuits left, no pemican, and then the sugar, which by this time we were afraid to touch. It was finally decided that I was to start out early next morning taking an easterly course, marking my trail constantly (so that Charlie could be easily found), and three or four hours should bring me to the main cart trail from Ft. Garry to Ft. Ellet.

I was pleased with the prospect and taking half a biscuit for my breakfast away I went, warning Charlie to stay I no more sugar, and then the sugar, which by this time we were afraid to touch. It was finally decided that I was to start out early next morning taking an easterly course, marking my trail constantly (so that Charlie could be easily found), and three or four hours should bring me to the main cart trail from Ft. Garry to Ft. Ellet.

No New Railway Projects

D. C. Coleman, Vice-President of the C.P.R., Winnipeg, who states that his company will postpone further western extension until conditions are more settled.

Rumour of Return Of Hapsburgs

Monarchists Are Not Taken Seriously By British Authorities.

London.—British official circles expressed the opinion that former Emperor Charles in his attempt to regain the throne of Hungary, was misled by Monarchists who advised him that the time was ripe for his return to Hungary. The advice of Regent Horthy to Charles to leave the country immediately, is regarded here as substantiating the view that there is no support for a Monarchist coup in Hungary at present.

It is believed here that Charles will enter Switzerland or some other neutral port, and not make a further attempt to return to Hungary.

If he should try this course, the Allies would do nothing aside from applying moral persuasion against his return to Hungary.

Germany Lodges Complaint

Teutons Protest Sale of Coal Delivered to Allies on Reparations.

Berlin.—Protest against the sale, by allied governments to neutrals, of coal delivered by Germany on the reparations account, is made in the note addressed to the Reparations Commission and the Belgian cabinet, by the German Government. It is asserted that Belgium is disposing of German coal in Holland, and the coal aggregating several thousand tons has been offered for sale abroad at prices below those Germany is able to quote. As a result, the note declares, German interests are being severely injured.

Mannix's Pope

Rome.—Deep concern over the deplorable conditions in Ireland, was expressed by Pope Benedict during his interview with Archbishop Mannix, of Melbourne, who came to this city from England, where he was in close touch with the Irish situation. Archbishop Cereiti, Papal under secretary of state, acted as interpreter during the audience, which lasted half an hour.

A Misunderstanding

Vancouver.—Premier Oliver informed the legislature that there had been a misunderstanding over the appointment to the cabinet of Mrs. Ralph Smith, that Mrs. Smith occupied the position of minister without portfolio and that he himself retained the position of president of the Privy Council.

Influence of the Movies

Winnipeg.—At the meeting of the intermediate high school principals at the conference of the Manitoba Education Association in Winnipeg, the degenerating influence of motion pictures upon the rising generation, was discussed. Corporal punishment was also discussed.

Recent statistics show more women than men are leaving the farms.

W. N. U. 1562

Government Extends Further Relief to Disabled Soldiers

No Further Assistance, However, Will Be Granted to Single Men Without Dependents.

Ottawa.—An order-in-council has just been passed extending the relief granted to disabled men by the Department of Soldiers' Civil Re-establishment until April 23, subject to certain modifications. It is now provided that the men for whom assistance shall be granted, shall be married or single with dependents who have received assistance as such prior to March 31. After March 31, the maximum amounts which may be expended on behalf of any case are: Man and wife, \$60; first child under 16 (girl 17), \$12; second child, under 16 (girl 17), \$10.

Maximum payable, \$85.

No further assistance will be granted to single men without dependents after March 31.

This extension will enable the Department of Soldiers' Civil Re-establishment to deal with the most needy cases during the next three weeks. By that time, it is hoped that a majority of the men who are now receiving assistance will be able to secure employment. It will be noted that no new cases for relief can be taken on under this extension, only those who have been carried prior to the end of March being eligible.

Exchange Zoo Specimens

Rocky Mountain Sheep and Goats Are Sent to Bronx Zoo.

Montreal.—Harold Sibbald, fire and game inspector for Rocky Mountain Park, Banff, is in the city on his way west from New York, where he left four fine Rocky Mountain sheep and two Mountain goats for the Bronx Zoo. These were sent by the commissioner for Dominion parks under a system of exchange for other animals, which will be sent for. They are worth \$400 each.

Sibbald told how these animals are caught by making a large corral and luring them with salt.

To Equalize Assessments

Assessment Revision Is Authorized Within Province of Alberta.

Edmonton.—In one of the most important reports ever prepared in the province, the commission appointed by the government under authority of the legislature last session to equalize assessments in land values of Alberta, has advised drastic revisions in the realty assessments of the cities, this amounting to many millions of dollars in the cases of Calgary, Edmonton, Lethbridge, Red Deer, Medicine Hat and Wetaskiwin.

Losses on Canadian Bacon

Announce Postponement in Arbitration Over Canadian Bacon Loss.

London.—The arbitration proceedings in connection with the losses on Canadian bacon exported to England under contract with the British-food ministry during the closing months of the last year, will not be commenced for some time, it is now stated.

Representatives of the leading Canadian interests concerned have arrived here, but it has not yet been settled whether the arbitration tribunal will sit in London or Liverpool.

The proceedings will be private, it is announced.

Education for Benefit of the Few

Edmonton.—Decentralization of educational institutions was the dominant note of the presidential address of T. E. A. Stanley, at the Alberta Educational Association convention. At present the university education was for the benefit of patetically few, he said.

Munitions Discovered

Cork.—The police have discovered in a dugout near Cork large stores of arms and ammunition, among which were two elephant guns, quantities of bombs, mines, bayonets, pikes, a few rifles and revolvers and also uniforms, and also seditious literature.

This package is the safest shortcut from the plantation to your teapot. The Godville Co. Ltd.

Just Imagine

The delicious preserves you would make if you could walk out into an orchard of Our Thousand Acres of ripe, luscious fruit, in the peak of condition, picking only the choicest, using nothing with it but pure cane sugar, and it, in addition, you had the most scientific machinery to turn it out—Don't you think you, Jan would be just about perfect? This is just how

Should the Farmer Hold His Wheat Or Should He Sell?

To the farmer who produced wheat last year and who is still holding it for a better price, this question is a vital one. He paid \$2.63 per bushel for seed; \$75 to \$80 a month and occasionally more, plus board, for labor; \$280 for a drill, \$295 for a binder; 20c to 50c per bushel for threshing; and a freight rate of from 14c to 25c, depending upon his location.

He has seen the price of his dearly grown product swing from \$2.85 1/4 to \$1.78 1/4, and back to \$2.04 1/4 on January 10th, since which time the price has dropped to the low point of \$1.71 1/2 (February 1st), and on February 10th was back to \$1.91. If he is still holding, he is beginning to wonder whether or not it would be wise to let go.

It is stated on good authority that Great Britain, who is usually our best customer for wheat, was out of the market from July to November, and it is a natural conclusion that this lack of buying was the chief cause of the slump in prices. Through large purchases made in North America last summer, and through further buying from the Argentine and China, the British Wheat Commission was able to lay up a surplus sufficient to last several months. Until recently, therefore, the United Kingdom has almost completely ignored our 1920 wheat crop.

In a recent issue of a leading financial publication, a Winnipeg banker points out that up to the end of last September commercial loans (which include loans to farmers) in Canada had increased three hundred and fifty-nine millions, as against an increase in total deposits of seventy-nine millions. Respective of call loans, commercial loans had in one year increased four and a half times as fast as deposits of all classes. The inevitable result of this would be that money, or credit, would become scarce, as the banks could not lend what they did not have. In the United States, in spite of the large holdings of gold in that country, the stringency is still worse. During recent months fifty-nine banks across the line have closed their doors.

In Kansas the grain growers are reported to have gone on what is called—rather inappropriately—a "strike for \$3 wheat," and many producers in Western Canada are holding their grain for better prices. "We do not question the propriety of this. We believe the farmers have a right to take any lawful measures which in their judgment, seem best to protect their legitimate profits, but those who have entered into this holding movement should be quite clear in their own minds as to just what they are doing. The farmer who chooses to

hold wheat in anticipation of a rise in price is simply speculating on the long side of the market. If he owns the wheat and has incurred no pressing debts in the growing of it, the speculation may be quite proper, but there is no assurance that it will bring the desired results.

It is estimated by Broomhall, the British authority, that for the crop year ending next June, Europe will import five hundred and twenty million bushels of wheat, and other countries forty millions, a total of five hundred and sixty millions. Bradstreet estimates that the United States can spare two hundred and fifty million bushels. The Canadian surplus is placed at all the way from one hundred and sixty to two hundred million bushels. It was estimated that Australia will have one hundred and ten million bushels for export, and the Argentine one hundred and twenty millions. If these estimates prove correct, there will be six hundred and forty million bushels available to supply a demand of five hundred and sixty millions. If Canadian and American farmers hold their wheat off the market for any length of time, such a policy will have a tendency to attract Argentine and Australian wheat to European markets. So that our farmers may find that they are holding up the price, whilst their southern competitors are unloading, and in the end our farmers may be compelled to sell at a figure substantially lower than they would have obtained had they sold in the ordinary course.

If we may borrow a simile recently used by Mr. E. G. Nourse, of the Iowa State College, this holding movement is very much like that other, difficult operation of "having the bull by the tail." Holding on may be quite safe, but the really dangerous part of the operation is in letting go.

It is not easy to predict future prices, and while wheat may go higher, there is the possible depressing factor that we have just mentioned—a good crop in the Argentine and Australia.

Some farmers who could have taken \$2.85 for their wheat at the beginning of the season, but who decided to wait for \$3.00, have found that it does not pay to hold too long.

It would, therefore, seem to be the part of wisdom for Canadian farmers to follow a gradual policy of marketing, so far as possible, on the occasions when the market shows strength, and not to hold on for the last nickel. Such a policy will help to relieve the strain on credit, and will assist in bringing prices for all commodities back to a normal level.—F. W. West

Holds Many Offices

Premier Martin, of Saskatchewan, was recently appointed Attorney-General for the province, and in addition he is Minister of Education, Minister of Railways and President of the Executive Council.

Sowing Good Clean Seed Pays in Results

Net Profits From Same Area Increase by Planting Only Best Seed.

Increasing the acreage of crops grown on the farm does not always mean greater net profits. The latter, per acre, are very frequently quite small. If the yield, per acre, can be increased without raising the cost of production the increase in yield will all go towards increasing the net profits. Let us assume, that a farmer's wheat crop yields 24 bushels per acre, and that it takes 20 of the 24 bushels per acre to pay rent or interest on capital invested, and the cost of preparing the land, seed, harvesting, threshing, etc. This would leave 4 bushels from each acre as the net profit.

On a large proportion of Canadian farms uncleaned or improperly cleaned seed is sown. There is no excuse for sowing so much dirty and poorly graded seed. The fanning and grading can be done in the slack time and well ahead of the busy spring seeding. This grading would not add to the cost of production of the crop and the larger yield secured would substantially increase or, in many instances, double the net profit. Experiments conducted with oats at Guelph over a period of seven years showed the following results: Large seed, 62 bushels per acre; medium seed, 54 bushels per acre; small seed, 47 bushels per acre.

Similar experiments with wheat, barley, rye and peas gave much the same results in each case. The small, shrunken and split kernels are much more valuable for feed than for seed. Another great advantage obtained by fanning and grading the grain for seed is that weed seeds are cleaned out. One way to prevent having weedy crops is to sow seed grain free from weed seeds. One weed seed sown may mean thousands of weed seeds produced in the next crop. Many of our worst weeds produce thousands of seeds per plant.—F. C. Nunick.

Measuring a Million

Requisite Quantity of Seed Sago Fills Quart Glass.

Few of us grasp the full meaning of the word "million." A lecturer succeeded in doing so some years ago. His first experiment was with the spoons on paper, which he found to be both cumbersome and inconvenient. Nor was he more fortunate in telling his audience that there were about three and a half million letters in the Bible. At last he got the idea of using grains small enough to go into a jar which could be conveniently handled by the audience. Experimenting first with tiny seed, rice grains, sago and similar small particles, he finally decided upon "seed sago." After sifting this, he counted out a few thousand grains, carefully weighed them in delicate scales, and then calculated what was required to get approximately a million grains. He found the requisite quantity to be 2 1/2 lbs. 2oz, which comfortably filled a quart glass.

The Future Greatness And the Possibilities Of This Dominion

An address of more than usual interest to Canadians was that given recently before the Canadian Club of Montreal, by Dr. C. A. Eaton, editor of Leslie's Weekly.

The Rev. Dr. Eaton, who is described by the Toronto Globe as "a scholar, a thinker and a man of broad human sympathies," is by training and experience well informed on world conditions. Beginning to preach at 18 years of age, he has successively been pastor of many churches in the United States and Canada, governor of universities, writer, traveller, lecturer and author.

His speech was both humorous and informative, as the following extracts will indicate:

"Now, what I want to say to you Canadian men is this. You have an immense empty country, to fill up. Now that the war is over you have found what resources of manhood you have. You want to get rich quick and grow up to a great population, a great populous country. Gentlemen, for God's sake, go slow; go slow. What a great calamity it would be when some national crisis falls on this dear land if you find that all your people are not of one mind and one spirit—if you have not got one soul in every part of this nation! Go slow. You had better improve the quality of your labor than increase its quantity. It is better to have one thoroughbred than a hundred mongrels. Pick your immigrants pick them at the source, pick men and women of character, industry and thrift, men and women who are of your mind and of your ideals, and don't permit an influx of those human beings who, for instance, that Lenin has ushered in the reign of God.

"Only have men and women who are capable, first of all of standing the winters, and secondly of becoming Canadian. Canada is not a United States in this respect. The thing I am anxious to see is this: to have Canada take something out of the experience of the United States. We are about one generation ahead of you. When we had great quantities of empty land we thought we could absorb any amount of alien people, whether of American ideals or not, and that land was a great deodorizer and developer of national spirit.

"You have great quantities of the

best land in the world still available, and to that extent you can take care of a huge immigration; but, gentlemen, as we are passing from agricultural domination to industrial domination, don't flood your cities with slums and half-nourished men and women.

"When the United States had three million people she had more great men in literature, art, science, religion, and, especially, politics than she has to-day with a hundred and three million people. Greatness has no relation to physical magnitude; it is the soul, the spirit of the individual, his moral resources; and surely Canada can measure with any nation on these ideals.

"You have no idea how large Canada is. I could here occasionally, and people say, 'You come from a rich country.' Nothing doing; this is the richest country in the world. You have a national wealth of over sixteen billion dollars. You have an annual income of two and a half billion. Your agriculture will produce this year over two billion dollars. You have the greatest wealth per capita of any nation in the world. Do you realize that you have the greatest undeveloped resources of any nation? Canada, since her birth, has done more with her population, as compared with others, than any nation has ever done since the dawn of time. You have the greatest system of canals and interior waterways. You have the most tremendous agricultural development a similar population ever got in sight of. You have developed a commerce and an industry that is amazing, measured by your population. The American throws out his chest and waves his flag, but the Canadian is the man who can do that and have something to stand on while he does it.

"What I ask you Canadians to believe is that your nation and the United States, side by side, have been given by God Almighty the greatest heritage ever given to a people and a great outstanding, forward-looking civilization.

"You here have come, as we have come, to the great test. Now the question is shall we turn our backs on the ideal that has come to us from out of the Anglo-Saxon civilization of a thousand years to take up something else? My answer is, 'No, we must go on as God began us three hours ago; we must go forward and develop those great ideals.'"

British Columbia's Agricultural Production

Shows an Increase in Practically Every Branch With Exception of Fruit Growing.

A report of the agricultural production of British Columbia during the period ending March 31st, 1920, has just been made by the provincial minister of agriculture, and shows an increase in practically every branch with the exception of fruit growing, for which the season was practically unsuitable.

The total value of production was \$63,084,553, an increase of \$2,630,397 over the previous year. The value of livestock is increasing and accounts for more than \$14,000,000. The dairy cattle is in a particularly healthy condition and breeders show a desire to use pure-bred sires, due no doubt to the extensive publicity that has been given to this subject. Consequent on this, the value of dairy products has been substantially increased.

British Columbia has during the past few years established an extensive market for her potatoes which are known widely for their high quality. During 1919, eighty-five cars were inspected for export to the prairie, while one hundred and eighty-five cars went to the Vancouver market. During the first half of the year, potatoes to the value of \$990,880 were also exported to the United States.

A philosopher says that people might live forever if they would only quit worrying.

Motor Boats for Northern Alberta

New Style to be Used for Freight and Passenger Service.

The first of a series of large motor "tunnel" boats for the Hudson Bay Company's service almost altogether in Arctic lakes and rivers, has been launched in Vancouver, British Columbia. From there the vessel, and half a dozen exactly like her, will be loaded on two flat cars to be transported to Edmonton, thence to Peace River Crossing, where it will again be launched for freight and passenger service.

The word "tunnel" is applied to the boats because there is a fine barrel-shaped cavity in the hull extending from the stern amidships about twenty feet. By this means propeller and rudders are ingeniously protected, and there are no projections to interfere with the phenomenon of light draught. When launched in Vancouver the vessel drew only nine inches and with a full load is expected to float over gravel bars that are submerged only twenty inches from the water. When the propeller turns the water which is hurried astern with the force of an hydraulic ram, sixty feet over all, the boat will have a speed of sixteen to seventeen miles an hour. She will have two 80-h.p. motors.

The manufacture of paper as a business activity ranks in age as far back as the manufacture of textiles.

The Way of A Woman

The Trend of the Times and the New Order.

Says the Los Angeles Times: "A woman's place is, doubtless, in the home, but if she doesn't think so there isn't much use in arguing with her. The day when a skirt can be kept locked up in the home is past. It is a sport skirt it will blow out of the window if necessary. If a woman isn't of the home-making and home-loving sort it is a hard job to work her over. It takes more than a marriage license to keep a woman in the environment of the home brew. When she has a passion for change and romance she will seek for them beyond the threshold of her home. A man may think he is born in his own home, but he isn't—beyond a certain point."

The Connoisseur.

The near-sighted man and his wife were inspecting the latest art exhibition with critical care.

"That's the ugliest portrait I've ever seen," he cried, angrily, striving every way for a better view of the abomination.

"Come away!" replied his wife. "You're looking at yourself in a mirror!"

Web-Footed Race

Troops in New Guinea Who Are at Home in the Water.

In New Guinea, we are informed, there is a tribe, called the Agaiambu, who have web-feet. They live in huts built on ten-foot poles in the midst of marsh, and are so much at home in the water that they seem "to stand upright in that element without any perceptible effort," says a correspondent. They never leave the marsh, the skin of their feet being so tender that they bleed freely when they try to walk on hard ground. They catch food by diving under them and catching the birds' leg, while their diet consists chiefly of fish, water-crop, sago and the roots of water-lilies. They keep pigs, swung in cradles underneath their houses, lying on their bellies with their legs stuck through the bottom, and feed them upon fish and sago. The dead pigs "boiled" by being tied to a stake, "the body, secured well above floor level."

Wife—"When I die you'll never find another woman like me."

Husband—"What makes you think I should try to find another woman like you?"

World Happenings Briefly Told

The city of Winnipeg will not adopt daylight saving this summer.

John Burroughs, world-famous naturalist, died suddenly in a New York Central train at Kingsville, Ohio.

Nearly one-fifth of the total strength of the British army all over the world is now stationed in Ireland.

The total fire loss in Saskatchewan during 1920 was \$2,800,000. This is an increase over 1919 of about \$400,000.

Mrs. George M. Pullman, widow of the inventor of the Pullman car, died at Pasadena, Cal., recently after a brief illness. She was 79 years old.

Alberta teachers are pressing for the appointment of a Dominion Minister of Education, with a view of forming a national educational policy.

In order to vote on the Ontario liquor referendum, those making application to have their names placed on the voters' lists, must be present in person.

Lieut. MacIntosh, who last year flew from England to Australia, was killed in an accident recently at Pilbara, 300 miles northwest of Perth, Australia.

Purchase of two grams of radium for 2,500,000 francs has been voted by the municipal council of Paris. The radium will be used in fighting the ravages of cancer.

Enactment of ordinances making it an offense for a member of either sex to wear a bathing costume that does not extend "from the neck to within four inches of the knee" has been suggested in Britain.

Eternity has no gray hairs.

Could Not Sleep

Mr. Earnest Clark, Police Officer, 338 King St., Kingston, Ont., writes:

"For three years I suffered from nervousness and sleeplessness. I believe my condition was brought about by overwork. I had frequent headaches, neuralgic pains and twitching of nerves and muscles. I had indigestion, was short of breath and easily tired. I commenced a treatment of Dr. Chase's Nerve Food, and seven boxes of this medicine relieved me of all my symptoms. I am now feeling one hundred per cent. better than I was, and have to thank Dr. Chase's Nerve Food for the good health I am now enjoying."

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.75, all dealers, or Edmanco, Bates & Co., Ltd., Toronto.

Nerve Food**

Shelter Belts of Trees

A Tree Planting Campaign for Prairie Provinces Again This Year.

The Canadian Forestry Association, which conducted a very successful educational campaign in the three prairie provinces last summer, has decided to extend the enterprise this year so as to cover eight months. Mr. Archibald Mitchell, a veteran tree planter, will be again in charge of the Tree Planting Car, which made itself a welcome visitor in scores of prairie communities during 1920, is being refitted as a motion picture demonstration with a sloping floor and the most modern motion picture equipment. New picture films are being made ready for this year's campaign.

The direct object of the Canadian Forestry Association's campaign is not only to beautify the homes of prairie settlers, but to combat the increasing damage through soil drifting and the blowing out of crops by getting popular co-operation in the planting of wind-breaks of trees. The remarkable effectiveness of thick shelter belts of trees is now widely recognized by prairie settlers. Recognizing the great value of this enterprise to the southern portions of the provinces, the Saskatchewan Government granted the Forestry Association one thousand dollars to assist the campaign this year.

Antelope Sanctuary in Alberta.

With Western Canada's antelope herds reduced to between 800 and 2,000, the Government has created a national reserve extending over 5,000 acres, near Memiskiam, Alberta, with a view to saving this animal from extinction. The area is approximately 100 antelope within the park bounds at the present, according to a return brought down in the House.

When Your Appetite Fails This Is What You Need

When the very thought of eating makes you feel dizzy, when you're run down, stomach in bad shape—you need a real housecleaning with Dr. Hamilton's Pills. They tone up the liver, assist the stomach and improve digestion. The taste becomes aware of new flavors in food you never noticed before. You'll look and feel a whole lot better after using Dr. Hamilton's Pills. Many folks used this fine old remedy and nothing else and kept in the pink of condition all the time. 25¢ at all dealers, or The Cartierhouse Co., Montreal.

The habit of drinking kerosene has long prevailed among the Indians in parts of South America, and to such an extent that the importation of kerosene for drinking is a considerable trade in Peru and Bolivia.

Minard's Liniment Relieves Neuralgia

Ontario's Mine Output.

The value of Ontario's mine output for the year 1920 was \$46,000,000, according to the report of the Provincial Department of Mines. This included 564,309 ounces of gold valued at \$11,665,735, as against a total value of \$10,451,709 in 1919. Silver production in 1920 was worth \$10,819,673, which was about \$2,000,000 more than during the previous year. The value of nickel matte product of 1920 was \$10,685,500, as compared with \$7,940,403 in 1919.

An excellent protection against worms can be got in Miller's Worm Powders. They render the stomach and intestines unsuitable to them. They heal the surfaces that have become inflamed by the attacks of the parasites and serve to restore the strength of the child that has been undermined by the draughts that the worms have made upon it, and that their operation is altogether health-giving.

Royal Fractions.

There is a general opinion that the Queen of England is a person of considerable strength and determination of character. That opinion is reflected in a number of more or less amusing stories. One of them relates that the Prince of Wales, while visiting the British forces at the front, was in a dugout the pictures of his royal father and mother. Under the King's was written, "George, the fifth," under the Queen's, "the other four-fifths."

Minard's Liniment for Sale Everywhere

The Report.

The black-haired boy had a mighty reputation for the tow-headed boy. "Huh," he said, "your mother takes in washing." "Of course she does," the tow-headed sartorialist retorted. "You didn't think she would leave it hanging out at night unless your father was in jail, did you?"

BABY'S HEALTH "IN THE SPRING"

The spring is a time of anxiety to mothers who have little ones in the home. Conditions make it necessary to keep the baby indoors. He is often confined to overheat, badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given. In the baby to keep his stomach and bowels working regularly. This will prevent colds, constipation or colic and keep baby well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Pyrites in Canada.

The total shipments of pyrites as sulphur ore from Canadian mines in 1920 were 174,744 tons valued at \$751,009 and included 14,817 tons from Quebec, 146,652 tons from Ontario, and 11,275 tons from British Columbia. The total sulphur content of shipments was 67,627 net tons, or an average of 38.7 per cent. Of the total shipments 27,823 tons were sold for consumption in Canada and 146,921 tons for consumption in the United States.

Some of the most eloquent sermons are wordless.

Heart Weak, Nerves Shattered After the "Flu."

In a large majority of cases those who survived the epidemic of Spanish influenza were left with weak hearts, shattered nerves, impoverished blood, and the whole system has been left in such a general weakened and exhausted condition that it has been impossible to get back your old health and strength.

If you are in this condition there is only one thing to do: take a course of Milburn's Heart and Nerve Pills and see how quickly your heart will be strengthened, your nerves toned up and your blood enriched.

Mrs. W. W. Pearce, 14 Seaton St., Toronto, Ont., writes: "I was left with a weak heart and in a rundown condition from the 'flu.' My Nerves were badly shattered, and I had such pains in my heart I could not sleep much at night. I took several doctors' medicines without getting any better. My husband got me to try Milburn's Heart and Nerve Pills, and after I took one box I got relief; after taking six boxes have been well and not bothered since."

Price 50¢ a box at all dealers or direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Molly—My little sister's got measles.

Jimmie—Oh, so has mine.

Molly—Well, I'll bet you my little sister's got more measles than yours has—Answers, London.

Many people are almost crippled with corns. But it is needless suffering which can be speedily ended with Holloway's Corn Remover.

The United States possesses 60 per cent. of all the telephones in the world.

An Evening Gown of Flamingo Satin

By Marie Belmont.

Among the colors that are especially liked flamingo stands pre-eminent at this time. It is shown in many different fabrics not only for the daytime clothes but particularly for those that are destined for evening wear. In the former realm it is chosen mostly as a trimming, while in the latter it is frequently favored for the fashioning of the whole garment. This lovely gown is originated partly in flamingo satin and partly in cream lace. The satin is draped effectively from the right shoulder toward the waistline, where it is slightly drawn in. From this point it falls gracefully toward the floor. The lace forms an interesting train and is also selected to veil the left side of the gown.

Rheumatism Relieved in 1 to 3 Days. South American Rheumatic Remedy is a wonderful medicine in the treatment of acute or inflammatory rheumatism, chronic rheumatism, lumbago, neuralgia, and all ailments due to rheumatism. It often cures in 1 to 3 days. At drugists.

Great Lakes Service

Canadian Pacific Announce Sailings for the Coming Summer.

The Canadian Pacific Great Lakes Steamship Service for the season 1921 will be similar to last year, according to announcement. The first sailing from Port William eastbound will be the SS "Manitoba" on Thursday, May 5th, to Owen Sound. This steamer will ply on the Owen Sound route all summer, sailing each Thursday thereafter until the last trip.

The SS "Assiniboia" and "Keewatin" will commence service between Port William and Port McNicoll with the first sailing May 28th, thence each Wednesday and Saturday until October 1st. Special boat train will be operated in connection with these sailings, leaving Winnipeg, Tuesday and Friday evenings. This train will operate through to the ship's side at Port William, thus avoiding long tire-some transfers.

Its Quality Sells It.—The fact that so many thousand of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. "Every since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds and various inflammatory pains its record is beyond reproach."

Claudia, the Roman emperor, was the first to insure his ships at sea.

BEECHAM'S PILLS

The Prince of Wales' Hat. Recently allusion was made to the Prince of Wales on hunting. The latest talk about him is that, having picked himself up after a toss at the end of last week, someone, giving him back his hunting hat, pointed out that it was broken. "Oh, never mind," said the Prince, smiling, "that's my third in ten days. I think I had better order them by the gross."

"Cold in the Head"

is an acute attack of Nasal Catarrh. Personal who are subject to frequent "cold in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to cold. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the Mucous Surfaces of the System. All Druggists 75¢. Obtainable from 100.00 for any case of catarrh that HALL'S CATARRH MEDICINE will not cure. F. J. Cheney & Co., Toledo, Ohio.

The Ottawa Divorce Mill.

There are over a hundred and fifty applications for divorce bills to come before parliament during the present session. The list is unusually long and is the result of marital troubles in two provinces only, the others having divorce courts deal with all applications. A committee of parliament is not an ideal tribunal for such work, no matter how conscientious the members may be.—The Montreal Gazette.

STRICTLY CASH BUSINESS

Crossfield Garage

LOCAL AND GENERAL

The Trail Rangers will hold an Athletic meet on Saturday afternoon, April 16th, probably at the school grounds, if the weather permits. They plan to go to Olds the following Saturday.

Mr. J. G. Riddle will sell by Auction, 24 Head of Horses, 19 Head of Cattle and the Farm Implements, etc., of Elie Vougein, on his farm half a mile west of Carstairs, on Saturday, April 23rd, sale to commence at 10 a.m. sharp. Terms Cash.

Much credit is due to the Ladies of the Crossfield Agricultural Society for the very successful Tea and Sale of Home Cooking which was held on Saturday last. The articles of home cooking which were offered for sale were excellent examples of the culinary art, and the courteous and efficient manner in which the ladies received and handled the crowd is deserving of the highest praise. Crossfield is indeed fortunate in possessing ladies of the calibre of those who handled and helped in making a success of this affair.

If you contemplate having a sale by auction, call at the Chronicle for auctioneers terms, etc. Distance no object. Satisfaction guaranteed.

The council of the M. D. of Rose bud offer a bounty of one cent for each gopher tail that is returned to the teacher by a pupil of this or her school district before the 21st day of May next under certain conditions: (School children wishing to enter this competition can get the conditions from their school teacher.

Extra Prizes—The school returning the largest number will be given a prize of \$15.00, the second \$10, and third \$5.00. No school whose total is under 500 will be eligible for any of these prizes. This prize money will also be forwarded to the teacher to be disposed of as the pupils of the school shall decide. Help the good work along.

Father and Son Banquet

On Friday evening last, the Crossfield Trail Rangers held their first annual "Father and Son Banquet". The boys, aided by their mothers provided a banquet indeed, for their fathers and themselves. The tables and the company, including the waitresses, would have made a very pleasant photograph for every one to remember this great event by.

After dinner the chairman of the evening, John Becker, took charge of the entertainment and first proposed a toast to "The King" which was heartily drunk by all. Percy Willis then toasted "Our Dad" calling upon his father to reply. Mr. Willis very suitably replied to the toast, wishing the boys all success in their endeavor to become better men than their Dad. "Our Sons" was then proposed by Mr. J. Belshaw, who coupled to the toast the name of Glenallen Reed, who very ably replied.

After a song by the fathers, one by the sons and then one altogether, Gordon Purvis took the floor, and taking as his subject, "My Dad and I," addressed the gathering in a very able, amusing and interesting manner. It being evident that the "great big man" sitting next to him, and he were "chums".

"The Church" was the next toast on the program, proposed by Jas. Belshaw Jr. who coupled the name of Rev. R. K. Swenerton, who replied, and in a jovial manner referred to the bounteous feast the ladies had provided, in fact, we think "Jamon Pie" on this occasion was nearest to his gentle heart.

After a little sing song by all, Mr. R. K. Swenerton introduced the speaker of the evening, Mr. Galloway, who is one of the chief boy workers in Alberta. Mr. Galloway spoke in a very entertaining, instructive and eloquent manner upon the question of "Father, Son and Company", emphasizing the fact that every son needs his father to be his chum; and every father should take some time each day, from the bus nose cares and worries, to become better acquainted with his son, so that when the time comes for the boy to start out into the world of tide and fashion, he may be fully equipped to meet the snare and temptations that every boy is bound to meet, and to fight, and to conquer.

After singing "O Canada" altogether the Trail Rangers put on a few stunts for the amusement and instruction of their fathers, Don McFadyen and Gordon Purvis proving themselves to be good "Fathers of Men", while Percy Willis and Glenallen Reed turned themselves into a human weighing machine, and in a very emphatic manner proved to Mr. Belshaw that his weight was correct.

A very good dinner, a very happy time, and a very good sale of left over cakes, pies, etc. for the benefit of the Rangers, closed with the singing of God Save the King.
